

The Sierra Club and Tobacco Free Portfolios Presents

DE-FUNDING TOXIC TOBACCO WEBINAR

Tuesday November 15th 10-11:30AM PST

This webinar will discuss how Tobacco Product Waste (TPW) harms the planet, its people, and how the tobacco industry may be using your money to do it. Cigarette butts are the most pervasive single-use plastic trash (cellulose acetate) and the most littered item on the planet, while simultaneously leaching thousands of toxic chemicals into the environment. It may come as a shocking surprise that your retirement investments may be contributing to the problem. Please join us to learn more about how to avoid unknowingly supporting Big Tobacco and what can be done about it.
